

Refrigeration Equipments

We offer wide gamut of Refrigeration Equipment which is designed and developed using premium quality raw material. Our gamut comprises of vertical refrigerator, table refrigerator, water cooler, wine chillers etc. These are extensively used in hotels, restaurant, and canteens for keeping varied food items in appropriate manner.

Vertical Refrigerator

We present an array of Two / Four door Vertical Refrigerator which is commonly used in hotels, motels, restaurant, ice cream industry. The refrigerator has adjustable temperature setting that freezes various food products in a systematic manner. Our array is available in two different models, one is two door vertical refrigerator and another is four door vertical refrigerator.

Following are the salient attributes of Two / Four door Vertical Refrigerator

- Low power consumption
- Durable
- Store food for longer period
- Corrosion resistance

Table Refrigerator

We manufacture a range of Two / Four door Table Refrigerator that offers unprecedented flexibility for food storage. Available in two different of models, our range is designed in compliance with various industries standards. These are widely used in restaurant, hotels as well in pharmaceutical industry for storing several medical products.

Our Two / Four door Table Refrigerator exhibit following salient attributes:

- Store food for longer period
- Low power consumption
- Corrosion resistance
- Durable

Pastry Display

Our high quality Pastry Displays - Round Glass / Straight Glass is extensively used in Confectionery, Bakery & Cake industries. Our gamut of pastry display provides ample space to keep variety of pastries in an organized manner. These come in two types of models and can be customized as per the requirement of clients.

Some of the unique features of Pastry Displays are as follows:

- Durable
- Corrosion resistance
- Elegant design

**Savoury Counter**

We offer a gamut of Savoury (Hot) Counters which is mainly used to keep bakery food item in hygienically and safely. These are fabricated using excellent quality raw material and widely used in Bakery & Cake industries.

Following are the salient attributes of Savoury (Hot) Counters are as follows:

- Elegant design
- Durable
- Corrosion resistance Savoury Counter

**Water Cooler**

We provide Water Cooler which is uniquely design using premium quality raw material. Our array is mainly used for cooling and dispensing water in an effective manner. The water cooler has ample storage capacity and extensively used in hotels, restaurants, hospital.

Our Water Cooler posses following salient attributes:

- Faster cooling
- Silent operation
- Trouble free operation
- Corrosion resistance

**Wine Chillers**

Avail from us an excellent quality Wine Chiller that cools wine efficiently. Designed & developed using optimum quality raw material, our range is widely catered to clients spread across the globe. This chiller is highly spacious and has excellent freezing properties that cool wines within short span.

Following are the unique features of Wine Chiller:

- Trouble free performance
- Corrosion resistance
- Dimensional accuracy

Gas Ranges

We export an assortment of Gas Range which is fabricated using premium quality raw material. Our gamut provides a viable option for preparing a wide range of food. The gas ranges which we offer to our client include four Burners, Chinese Cooking Range, Roomali Roti Station etc.

Cooking Range

Our array of Four Burner / Two Burner Cooking Range with Hot Plate & Oven Below is widely used in five star hotels and restaurant. Our multi-purpose device is highly efficient and aids us in preparing variety of cuisines with minimal time. Fabricated using finest quality raw material, our product is widely catered to clients spread across the globe.

Some of the unique features of gas burner are as follows:

- High efficiency
- Trouble free performance
- Safe to use
- Corrosion resistance

Indian Cooking Range

We present an array of Indian Cooking Range with Gravy Container that is viable option for preparing wide variety of Indian cuisines. Fabricated using premium quality raw material, our product is extensively used in large hotels and restaurant.

Following are the unique features of Indian Cooking Range:

- Trouble free performance
- Corrosion resistance
- Fine finish
- Easy to operate

Burner Cooking Range

Avail from us high quality Single / Two / Three Burner Cooking Range which is fabricated using premium quality raw material. Intricately designed, our elegant cooking burners are diversely used in hotels and restaurant for preparing different types of cuisines swiftly.

Some of the salient attributes of Burner Cooking Range

- Safe to use
- High efficiency
- Corrosion resistance
- Trouble free performance

**Chinese Cooking Range**

We offer a gamut of Chinese Cooking Range that has elegant appearance. Our exclusive range is mainly used to prepare delicious & mouth watering Chinese cuisine within short period. These come with several control and operating knobs that ensure trouble free performance.

Our Chinese Cooking Range possesses following important features:

- Excellent finish
- Easy to clean
- Corrosion resistance
- Long operational life

**Central Kitchen bulk cooking & steam vessel**

We manufacture optimum quality Roomali Roti Station that is mainly used to make hot and soft roomali rotis swiftly and efficiently. Our comprehensive product is fabricated using finest quality raw material and widely used in grand hotels and restaurants.

Our Roomali Roti Station possesses following unique features:

- High performance
- Fine finish
- High efficiency
- Corrosion resistance

Pantry Equipments

Our pantry section is widely appreciated in the international market due to its high performance and durability. The pantry section includes Dosa Plate, Pizza Oven, Juicer / Mixer / Blender etc. Our range is intricately designed and extensively used in restaurants and hotels.

Idli Steamer / Boiler

We provide a gamut of Idli Steamer / Boiler that is aptly designed to meet the need of bulk cooking of various kinds. Our ranges aid us in preparing a wide range of idli in most convenient manner. These are fabricated using finest quality raw material and customized as per the requirement of clients.

Following are the important features of Idli Steamer / Boiler:

- Corrosion resistance
- Durable
- Excellent finish
- Efficient performance

Kadai Fryer

We offer Chapatti Plate with Puffer which makes puffed chapatis effectively. Our manufacturing product is widely acclaimed by our clients due to its trouble free performance. This is specifically designed for commercial kitchen and highly demanded in five star hotels and restaurants.

Some of the unique features of Chapatti Plate with Puffer are follows:

- High efficiency
- Long functional life
- Corrosion resistance
- Fine finish

Dosa Plate

Avail from us an array of Dosa Plate which is mainly used to make dosa uniformly. Fabricated using top notch quality raw material, our array is extensively used in hotels and restaurants. We also offer customization on our gamut as per the specification of clients.

Our Dosa Plate exhibit following salient features:

- Corrosion resistance
- Dimensional accuracy
- Silent operation
- Low power consumption
- High performance

**Restaurant Tandoor**

We manufacture an optimum quality Restaurant Tandoor that is attractive in design and meets all the quality standards set by our clients. Our exclusive tandoor is commonly used in restaurants & hotels to make delicious tandoori cuisines.

Following are the unique features of Tandoor:

- Low power consumption
- Corrosion resistance
- Silent operation
- High performance

We export an assortment of Pizza Oven which is designed and developed using premium quality raw material. Our range of pizza oven is highly efficient and bakes pizza in most convenient & effective manner. The pizza oven consumes less power during backing.

Some of the unique features of Pizza Oven are as follows:

- High performance
- Silent operation
- Dimensional accuracy
- Safe to use
- Corrosion resistance
- Low power consumption

**Toaster**

We provide a gamut of Salamander / Toaster that is fabricated using finest quality raw material. Our toaster is stylish, toast breads instantly and widely used in hotels, restaurant, and canteens. These Salamander / Toaster are suitable for grilling, toasting and reheating and widely catered to global client.

Our Salamander / Toaster posses following important features:

- Safe to use
- Corrosion resistance
- High performance
- Low power consumption
- Silent operation

Salamander

We provide a gamut of Toaster that is fabricated using finest quality raw material. Our toaster is stylish, toast breads instantly and widely used in hotels, restaurant, and canteens. These Toaster are suitable for grilling, toasting and reheating and widely catered to global client.

Our Salamander / Toaster posses following important features:

- Safe to use
- Corrosion resistance
- High performance
- Low power consumption
- Silent operation

Juicer / Mixer / Blender

We offer an array of Juicer / Mixer / Blender which is developed using premium quality raw material. Variety of fruits juice can be made instantly from our sophisticated assortment. These are not only used in commercial kitchen but also widely used in domestic kitchen.

Some of the unique features of Juicer / Mixer / Blender are as follows:

- Low power consumption
- High performance
- Safe to use
- Silent operation

Vegetable Cutting Machine

We present a range of Chopping Blocks which is mainly used to chop vegetables and in an appropriate manner. Made from optimum quality raw material, our gamut is widely used in food industry, hotels and restaurants. These choppers chop vegetable quickly and eliminate scratches to table surface.

Our Chopping Blocks posses following unique features:

- Durable
- Safe to use
- Fine finish

Grinding Equipments

Avail from us an assortment of Grinding Equipments that aids us in preparing food swiftly. Fabricated using premium quality raw material, our qualitative products find application in several area like restaurants, hotels, food industry. We also provide customized solution on our gamut as per the specification of clients.

Dough Kneader

We manufacture a gamut of Dough Kneader that prepares soft dough in most hygienic manner. Designed for perfection, our product meets various industries standard. Our range is developed using premium quality raw material and widely catered to clients across the globe.

Following are the salient attributes of Dough Kneader:

- Compact design
- Easy to operate
- Long functional life
- Durable

Spices Grinder

We export a range of Grinder that is fabricated using optimum quality raw material. Our range of grinder can grind spices and other material in most convenient & swift manner and ensures long functional life. We provide customization on our gamut as per the requirement of clients.

Some of the unique features of Grinder are as follows:

- Silent operation
- Durable
- Compact design
- Easy to operate

Grinder - Tilting Type

We offer an assortment of Grinder - Tilting Type which is diversely used in grinding wet items, semi-solids. Manufactured from high quality raw material, our range finds applications in various Hotels, Restaurants, Food industry, Ice-cream industry and others.

Our Grinder - Tilting Type exhibit following salient attributes:

- Easy maintenance
- Silent operation
- Durable
- Corrosion resistance
- Compact design

**Food Pulverizer**

Our gamut of Pulverizer is specifically used in food and pharmaceutical industry to grind large amount of food & chemical products safely and hygienically. Fabricated using premium quality raw material, our gamut meet various industries standard.

Following are the unique features of Pulverizer:

- Smooth operation
- Compact design
- Easy maintenance
- Long functional life

**Potato Peeler**

We present a range of Potato Peeler which is intricately designed to suit the demand of various industries. Our range of peeler peels large quantity of potatoes efficiently and widely used in food industries, hotels and restaurants. During the peeling process, it drains the water and peel waste.

Some of the salient attributes of Potato Peeler are as follows:

- Compact design
- Corrosion resistance
- Long functional life
- Silent operation
- Easy maintenance

Kitchen Racks

Avail from us an assortment of Racks that is made for perfection and extensively used in commercial kitchens to keep utensil systematically. Our gamut includes storage rack, wall shelves and pot rack that are developed using excellent quality raw material.

Storage Rack

We manufacture a gamut of Storage Rack that is used to keep food in an organized manner. Our range is fabricated using premium quality raw material and widely used on five star hotels and restaurants. The range can be customized according to the requirement detailed by the client.

Our Storage Rack possesses following unique features:

- Corrosion resistance
- Sturdy
- Durable
- Dimensional accuracy

Wall Shelves

We offer an array of Wall Shelves which is specifically designed to keep different kinds of kitchen equipment in appropriate manner. This finds applications in various Hotels, and Restaurants and is offered at market leading prices and can be customized in designs and sizes to meet the exact requirement of our customers.

Following are the salient attributes of Kitchen Wall Shelves:

- Dimensional accuracy
- Sturdy
- Corrosion resistance
- Durable

Kitchen Pot Rack

We provide a range of Pot Rack which is widely used across the globe both for domestic as well as commercial purpose. Our product is used to keep utensils in safe and effective manner. This is fabricated using optimum quality raw material and ensures long operational life.

Some of the unique features of Pot Rack are as follows:

- Sturdy
- Dimensional accuracy
- Durable
- Corrosion resistance

Utility Trolleys

We are engaged in the sphere of manufacturing and exporting a wide range of trolleys such as Kitchen Utility Trolley, Room Service Trolley, Linen Trolley and Luggage Trolley. These are manufactured with high quality raw material to ensure sturdiness and durability. Available in various sizes, our trolleys can also be customized as per the specifications, provided by our clients.

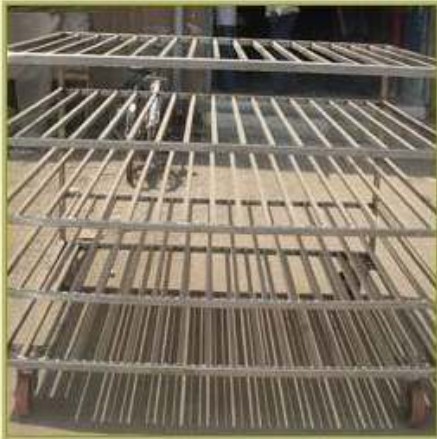

Soiled Dish Trolleys

Leveraging on our industrial experience and sophisticated manufacturing unit, we have designed various Luggage Trolleys that have been appreciated among our clients. These trolleys are spacious and are useful at airports, railway stations and at other transporting purposes. The entire range of the trolleys is available on customization to suit the varied requirements of different industry.

Features:

- Spacious
- Durable
- Can be used for heavy duty applications
- Robust construction

Pot Rack

Our extensive range of Linen Trolleys is mostly used for various applications in clinics and nursing homes. These are manufactured with premium quality raw material and available in various technical specifications. To suit the varied requirements of the clients, we can also customize the products within committed time frame. Features:

- Highly efficient
- Durable
- High strength

**Masala Trolleys**

Our company is also engaged in the manufacturing and exporting a wide assortment of Trolleys that are used for room services. These are mostly used in hotels and hospitals. We use high grade raw material to manufacture these trolleys that ensure optimum performance and efficiency. These are manufactured in various sizes & dimensions and can also be customized as per the specifications, detailed by our clients. Features:

- Easy to handle
- Robust construction
- Durable

**Kitchen Utility Trolleys**

We offer an extensive range of Kitchen Utility Trolleys that are widely demanded for various applications. These increase the total surface area of the kitchen so more work can be accomplished when the need arises. These can be easily moved from one place to another as per the suitability of user. These are widely used in domestic as well as commercial kitchen in various restaurants and hotels.

Features:

- Easy to handle
- Durable
- Corrosion resistant
- High storage capacity

Food Serving Equipments

We have also achieved expertise in the sphere of manufacturing various Food Serving Equipments such as Chat Counter, Juice Counter, Pani Puri Counter, Buffet Counter with Sneeze Guard, Pick Up Counter with Heater Lamps, Hot Bain Marie, Cold Bain Marie and Tea / Coffee Dispenser. We are backed with efficient workforce who assists in installation of these counters at our clients end.

Buffet Counter

Our company is also engaged in the operations of manufacturing a wide range of Chat Counters that are fabricated with high quality of raw material to ensure durable performance of these counters. These are spacious and have been appreciated for their robust construction. Based on the specifications, detailed by our clients, we can also provide the customized range of these counters.

Features:

- Robust construction
- Easy accessibility
- Spacious
- User friendly

Juice Counter

We also offer various kinds of Juice Counters that are widely demanded in various hotels, restaurants and other places. These are manufactured with latest technology and have been appreciated for their convenient designs. These are properly designed to keep various types of fruits in a systematic manner providing.

Features:

- Enabled with various shelves
- Easy to use and install
- Light weight but durable

**Cold Counter**

Pani Puri counters are very common at various places; these are widely demanded in the country. We deal in the manufacturing of different Pani Puri Counters that have been designed in an innovative manner. Further, to suit the varied requirements of the clients, we can also design these counters as per the specifications of the clients.

Features:

- Convenient designs
- Easy to handle and carry
- Robust construction
- Durable

**Buffet Counter**

Leveraging on our industrial experience, we have also achieved expertise in the sphere of manufacturing and exporting various kinds of Buffet Counters that are widely demanded in catering industry. We have efficient team of workforce, who assists us in designing these counters with innovative approach.

Features:

- Highly efficient
- Easy to install and transport
- Durable
- User friendly
- Can be enabled with oven and heater on demand

**Mono Block Cooking Station**

Our comprehensive range of Pick Up Counters are available with heater lamps. These are widely demanded for various applications in hotel and catering industries. The heater lamps help in keeping the stored food in hot condition. These can also be customized as per the specifications, detailed by our valued clients.

Features:

- Spacious
- Easy to handle
- Durable
- Robust construction

These are manufactured with latest technology that helps in increasing the efficiency of the Wine Chillers. These are also used for domestic as well commercial purposes:

Features:

- Excellent designs
- Smooth functionality
- Low maintenance

Bar Display Bottle Unit

We offer Cocktail Stations that has high functionality and offer quick service of cocktails and drinks from the bar. It includes various other facilities such as Glass racks, Ice chests, Speed Rails (Liquor rails), Mix Bottle Wells, Garnish Tray, Blender Station with Sink and Faucet, Liquor Tier Rack, Waste Chutes.

Features:

- Spacious
- Durable construction
- High functionality

Blender & Cocktail Station

We manufacture a range of Blender Station which is mainly used in grand hotels and restaurant. Fabricated using high grade material, our range is perfect option for mixing up signature drinks in an aristocratic style. This is elegantly designed to suit the demand of our global clients.

Following are the salient attributes of Blender Station:

- Spacious
- Robust construction
- Corrosion resistance

Bar Bottles & Wines Display

Apart from manufacturing various counters and stations, we are also dealing in the sphere of manufacturing a wide range of Glass Storage Racks that are appreciated for their high strength and capacity to keep large number of glasses at a time in a systematic manner. Apart from the standard designs, we are also able to provide the customized range of these racks to suit the varied requirements of the clients.

Features:

- Capacious
- Durable
- Easy to handle

**Cocktail Station with Sink Unit**

We specialize in the sphere of manufacturing and exporting a wide range of Sink Units that are used in various restaurants, hotels and for domestic purposes. These are extensively used for manually and hygienically washing different kitchen accessories. We provide the customized range of these Sink Units to suit the varied requirements of the client.

Features:

- Low maintenance
- User friendly application
- Durable
- Convenient designs

Washing Equipments

We offer our clients with fine quality washing equipments that are designed using optimal raw material procured from quality oriented vendors. Our range of washing equipments is high in demand amidst our clients owing to its excellent finishing and stunning appearance. Our range of washing equipments includes following products:

Dish Washing Machine

We are engaged in exporting a qualitative array of Single / Twin/ Three Sink Unit, designed using optimum raw material and is known for its plush design and smooth finishing. These are made in accordance with the latest technology to serve our clients with multiple requirements. Our assortment consists of three types of sink unit which are single, twin and three sink unit. Some of its striking features are:

- Corrosion resistant
- Sturdy
- Easy to use
- Replete with all modern functions.
- Excellent finishing
- Spacious

Soiled Dish Landing Table

We manufacture optimal quality gamut of Soiled Dish Landing Table of varying dimensions and capacity, made out of premium quality material. Our range proves to be an effective in handling and landing system in kitchen and is a perfect blend of technology and smarts. Some of the striking features of our assortment are:

- Low noise
- Corrosion proof structure
- Convenient maintenance

Washing Sink Unit

We are one of the leading manufacturers and suppliers of Pot Racks that are in demand amidst our clients owing to its design and sturdiness. Designed using quality material, our range of Pot racks complements just about any kitchen design. We have pot racks of varying size as per the size of the kitchen. Some of its features are:

- Robust
- Spacious
- Easy to use and install
- Corrosion resistant
- Diverse loading capacities
